Adopt-a-Stream Training
Saturday, March 17th 10 am - 1 pm
Baltimore County Game and Fish Protective Association
(3400 Northwind Road, Parkville, MD 21234)

The Gunpowder Valley Conservancy (GVC) is looking for volunteers (age 18+) to participate in our Adopt-a-Stream program. It’s easy to participate:

- Attend a training workshop
- Agree to clean your adopted stream segment twice a year
- Send us your trash data
- Watch for and report stream hazards.

Great for individuals, families, neighborhood associations, Scout groups, school, or community groups.

This training will include a power point presentation, maps of local streams ready to adopt, and information on stream health parameters. Workshop participants will learn about the Gunpowder Watershed, the challenges it faces, and how we can help to protect and improve our local waterways. Topics will include how to safely remove trash from the waterways, how to properly identify problems such as sewer breaks and illicit discharges, and who to contact to report such problems.

What to Bring: Pen, notepad, water bottle, and if good weather, your rubber boots for stream wading, warm clothing, and gloves.

Register online at www.gunpowdervalleyconservancy.org/calendar

For more information: Please contact Darcy Herman, Clear Creeks Project Assistant Manager at dherman@gunpowdervc.org or 410-780-8618.

We thank our project partner, Baltimore County Game & Fish for their support and use of facility. The Stream Watch Program is funded by: Baltimore County Department of Environmental Protection and Sustainability, and the Gunpowder Valley Conservancy.
